OPERATORS HANG UP RECORD WITH 17 NEW WELLS DURING WEEK FOR 8900-BARREL YIELD

Operators hung up a record for new production in the Torrance-Lomita field this week when they completed seventeen new wells for a total flush yield of 8900 barrels. In addition to the nine wells reported in last Tuesday's issue, eight more have gone on, with E. J. Miley's Torrance No. 6 leading the list as a 1200-barrel flowing well.
 Both the east side and the west side contributed to the new production. Miley's new one is on the Joughlin lease in the eastern extension. It was drilled to 3835 feet.
 In the southwest part of the field the Petroleum Securities completed Marble No. 17 at 3780 feet for an 1100-barrel producer.
 Important among the week's latest completions is Cotton-See No. 1 of the Fullerton Oil company. This is the first producer brought in by Fullerton on its Cotton property, situated just west of Standard's Marble fee holdings. Cotton-See No. 1 came in with a flush production of 800 barrels. The oil tests 26 gravity. The tubing gauge registers 320 pounds of pressure, with 620 pounds showing on the casing register. The well was drilled to 3668 feet.
 The Standard Oil company contributed two new producers—one on the Marble lease and one on the property held in fee. Marble Fee No. 1, completed at 3705 feet, is flowing at a rate of 650 barrels a day. Marble Lease No. 5 is pumping 450 barrels, having been drilled to 3840 feet. The fee well is on the north line near the old Redondo road, while the lease producer is on the north line of the Marble lease.
 The Pan American Oil Company brought in its second producer this week when House No. 1, on the east side, opposite Miley's Joughlin lease, was completed at 3891 feet for a yield of 500 barrels a day.
 The Sentinel Oil company's Joughlin lease contributed its seventh producer when No. 7 went on at a 400-barrel rate. It was drilled to 3830 feet.
 In East Lomita J. F. McMahon brought in a well from 3792 feet. It is making 200 barrels on the pump.
 The total production of these eight wells is 5300 barrels—an average of more than 620 barrels per well.

FAMILY REUNION
 The guest of honor at a family reunion held recently at the home of Mr. and Mrs. Lewis Ripple of Andree avenue was John R. Ripple, here recently from Aliza, Oriente province, Cuba. Mr. Ripple will remain here for the summer.
 Other members of the family present were Mrs. B. H. Ripple and Mr. and Mrs. C. H. Ripple, of Alhambra.

GOING EAST
 Mr. and Mrs. George W. Neill and son Junior left for the east today for a six weeks' stay. Mrs. Neill will visit her sister, Mrs. J. R. McCloud, at York, Neb., and Mr. Neill will continue to New York city for a visit with his mother and sister.
 Little Billy Newby is reported to be improving.

OUR WATER SUPPLY
 Mr. Editor: I wish to call attention to the water supplied our town from the reservoir. I am informed by neighbors who visited the reservoir a few days ago that the water is low, dingy in color, and much scum floating on top. We all know that it tastes very bad, so that some people are boiling it, and many buying their drinking water. Even a goat we have seen turning away from it in disgust. We pay high here for this great necessity of life and want to see something done at once, before an epidemic breaks out and claims some of our loved ones.
 Lomita and Redondo have their reservoirs covered, and why doesn't this town? ***

FOOD SALE
 A food sale will be held on Saturday, May 24, at the Torrance grocery by the Ladies' Aid society of the M. E. church. Sale to begin at 10:30 a. m. A great variety of cooked foods and baked goods are to be on sale. Do not forget the date or place—Saturday, May 24, Torrance grocery.

TORRANCE IS THIRD IN DISTRICT MEET
 The district track meet for elementary schools in the harbor district and shoestring strip was held Thursday morning at the high school in San Pedro.
 Between fifty and sixty Torrance kids attended, going over in autos furnished by local people.
 Torrance won in the first event, the posture parade.
 In the final count Torrance came in third, with 56 points; McKinley Home school was first, with 62 1/2 points, and Fifteenth Street school, San Pedro, second, with 57 1/2 points.
 A great deal of credit is due Miss Lay, who drilled the boys.
 As a reward for their splendid showing Mr. Bell, principal of the elementary school, will take the boys out to one of the battleships in the near future.

NEW ENGLAND THRIFT
 On the way from one town on Cape Cod to another a Bostonian came upon a charming house by the roadside, which immediately claimed his attention. It bore a fresh coat of white paint, which was well set off by green blinds. There was a smooth piece of lawn in front, a group of fine shade trees, and hammocks, piazza chairs, brilliant sofa pillows, and all the adjuncts of summer comfort in luxurious profusion.
 A boy of 14 accompanied him as guide and adviser. To him the stranger put this query: "Whose place is this?"
 "Oh," said the boy, casually, "that's the poorhouse!"
 "The poorhouse! You seem to have luxurious papers in this town!"
 "Well, sir, you see, we ain't got but one, and she's an old woman. The overseers board her out with one of the neighbors and let the poorhouse to some of them Boston swells for the summer, and that pays her keep."

John Sailer of Detroit, Mich., is a guest at the home of his cousin, Joe Stone. Mr. Sailer is associated with A. H. Bartlett in insurance.

HEAT, LIGHT AND ELECTRICAL MEDICAL APPARATUS NOW AT DISPOSAL OF TORRANCE PUBLIC

In order to provide the most modern scientific equipment at the disposal of the public in this district, Doctors J. S. Lancaster and George P. Shidler have installed in their Torrance office in the First National Bank building a quantity of new apparatus. The equipment consists of the most modern X-ray and fluoroscope available, two quartz lamps, a large and modern electrical apparatus for purposes of diathermy (electrical treatment), and a large heat penetration lamp for deep therapy.
 The fluoroscope will enable the physicians to perform important X-ray work without having to develop films. It is large enough to permit of an X-ray of a large portion of the human anatomy.
 The electrical apparatus for purposes of diathermy and auto-condensation permits of electrical treatment by the use of heavy alternating currents, and has proven to be of inestimable value in the treatment of many ailments, especially inflammations and infections.
 The acquisition of this modern equipment in Torrance places at the disposal of the public the latest accepted apparatus for treatment of many pathological ailments, in the rapidly developing realm of treatment by electrical current, heat, and sequestered light rays.
 The fluoroscope is of unusual value for purposes of accurate diagnosis, probably the most important phase of medical science.

ACHIEVES BOYHOOD AMBITION TO FIGHT BATTLE FOR MOTHER
 Twelve years ago Harold A. Fendler of New York, made up his mind he would study law so he could fight a battle for his mother in the courts. Now he is waging a bitter legal fight against Richard Walton Tully and Oliver Morasco, producers of "The Bird of Paradise," which he charges is a copy of his mother's play, "The Hawaii," submitted to the producers before they put on "The Bird of Paradise."
